10. Attach a washer, lock washer and nut to all bolts and tighten.

WARNING

IMPORTANT SAFETY PRECAUTIONS

FOR YOUR PERSONAL SAFETY
AND TO AVOID DAMAGE TO THE CHAIR AND OTHER PROPERTY:

- For your safety securely fasten the chair directly to the ground or deck
- Always tighten set screw on the lower pole of your umbrella
- To avoid problems, always lower the umbrella during wind conditions and when not in use

MATERIALS

Tailwind® Furniture is manufactured utilizing High Density Polyethylene (HDPE), a recycled plastic derived from post consumer & post industrial bottle waste, combined with stainless steel hardware. Tailwind's Lifeguard Chairs & Furniture will never need painting or staining and will not rot or splinter. The recycled plastic has an added UV inhibitor to resist fading. HDPE is unaffected by most corrosive substances, will not absorb moisture, or promote bacterial growth.

CARE & MAINTENANCE

To maintain the original finish, clean regularly with soap and water. If stubborn stains occur, use a pressure washer (Not to exceed 1,500 psi which is the same as a carwash; any higher can damage the plastic) and "Greased Lightning", a product found at your local home centers, was found to be most effective on stubborn stains.

REDUCE•REUSE•RECYCLE
Please recycle packaging material
