PREPARATION

Above-ground pool liner pads are essential accessories designed to enhance the longevity and enjoyment of your pool. Gorilla Pads® serve as a protective barrier between the pool liner and the ground, preventing damage from sharp objects like rocks or other debris that could puncture or tear the liner.

INSTALLATION

1. Before installing the Gorilla Pad®, ensure that the sand floor of the pool area is level and has been tamped down.
2. When the sand floor is level and ready for pool installation, roll out the liner pad in the desired location of the pool.
3. Center the liner pad in the pool area.
4. Assemble the pool.
5. Cut the liner pad to size if needed.

NOTE

If assembling a soft-sided pool, carefully cut away from the pool as to not puncture the pool wall.
