BLUE WAVE® PREMIER INFLATABLE FAMILY POOL WITH COVER INSTRUCTION MANUAL

Questions, problems, missing parts?

Before returning to your retailer, call Blue Wave Customer Service at 1-800-759-0977, Monday – Friday, 8am – 5pm (CST)

THANK YOU!

Thank you for purchasing this product. We work around the clock and around the globe to ensure that our products maintain the highest possible quality. However, in the rare case of issues during assembly or use of this product, please contact our **Consumer Hotline at 800-759-0977** for immediate assistance before contacting your retailer.

SAFETY INFORMATION

Please read this entire manual before attempting to assemble, operate, or install the product.

IMPORTANT SAFETY INSTRUCTIONS

Please examine the pool before use. If there are any damaged or missing parts at the time of purchase, do not assemble or operate until parts are replaced.

To lessen the risk of serious injury or death, follow these rules.

The following instructions contain important safety information, please read these safety instructions and abide by them when installing and using this pool. During installation and usage, the basic safety precautions must always be followed.

This includes the following:

WARNING!

PREVENT DROWNING! Children have drowned in swimming pools.

Ensure active adult supervision at all times. Do not leave children unsupervised in or around the pool. Keep them within arms reach. Never leave young children unattended.

NO DIVING! You can break your neck and be paralyzed. Do not dive into this pool. Diving into shallow water can result in a broken neck, paralysis, or death.

Safety Care for Children

Drowning Risk:

1. Prevent Young Children from Drowning:
 - a. Children under 5 years of age are the highest risk for drowning.
 - b. Closely watch children who are in or near this pool.
 - c. Empty the pool or prevent access when not in use.
2. Prevent Young Children From Gaining Access to Pool:
 - a. Remove pool ladders before leaving your pool. Toddlers can climb your ladder.
 - b. Position furniture away from the pool so that children cannot climb and gain access.
 - c. When leaving the pool, remove floats and toys from pool that might attract a child.
3. Assign an adult to be responsible for watching children in the pool.
4. Pool presents a drowning hazard even during filling and draining of the pool. Maintain constant supervision of children and do not remove any safety barriers until the pool is completely empty and stowed away.
5. Children, especially children younger than five years, are at high risk of drowning. Drowning occurs silently and quickly and can occur in as little as 2 in (5 cm.) of water.
6. Keep children in your direct sight, stay close, and actively supervise them when they are in or near this pool and when you are filling and emptying this pool.
7. When searching for a missing child, check the pool first, even if child is thought to be in the house.
8. Empty your pool completely after each use, and store the empty pool in such a way that it does not collect water from rain or any other source.
9. Keep unsupervised children from accessing the pool by installing fencing or other approved barrier around all sides of pool. State or local laws or codes may require fencing or other approved barriers. Check state or local laws and codes before setting up your pool.

IMPORTANT SAFETY INSTRUCTIONS

Electrocution Risk

Keep all electrical lines, radios, speakers, and other electrical appliances away from the pool. Do not place the pool near or under overhead electrical lines.

First Aid

Keep a working phone and a list of emergency numbers near the pool. Become certified in cardiopulmonary resuscitation (CPR). In the event of an emergency, immediate use of CPR can make a life-saving difference.

WARNING!

This pool must be assembled on a smooth and level site of firm soil that is free of stones, gravel, sticks, black-top, or other oil based compounds.

WARNING! Do not install pool on a wooden deck or any type of wooden surface.

WARNING! Do not install the pool on a slope or inclined surfaces, on soft or loose soil conditions (such as sand or mud), or on an elevated surface such as a deck, platform or balcony, which may collapse under the weight of the filled pool.

WARNING! This pool should be set up so that it complies with local safety and building codes. The pool is to be assembled by an adult; care should be taken in the unpacking and assembly of the pool.

CAUTION: Keep out of baby's reach.

WARNING: Use only under supervision.

WARNING: Only for domestic use.

DANGER! Competent supervision and knowledge of the safety requirements ARE the only ways to prevent drowning or permanent injury in the use of this product! Never leave young children unattended.

SETUP INSTRUCTIONS

Inflation Instructions

CAUTION: Inflate by adult only. **DO NOT** overinflate or use a high pressure air compressor to inflate. Inflate the pool with cold air only.

1. Locate a clean area free of stones or other sharp objects to inflate the pool.
2. Inflate the air chambers following the numbered sequence (if any) slowly with a manual/foot air pump.
Adequate air pressure: make sure the pool is firm to the touch but NOT hard - there should be small folds around the armrests, backrests and/or side edges, and below the cup holders (if any). Also compare the pressure with that of the large main chamber.
3. Close and press the inflation valves into the unit to get a flat surface.
4. Check regularly to ensure the adequate air pressure during each use, especially on very hot or cold days.

Emptying And Deflating the Pool: Deflate the pool and/or push down on the side wall to empty the pool water and/or lift up one side of pool to empty pool water

- NOTE:**
1. The pool can be only cleaned with mild soap and lukewarm water.
 2. Make sure the pool is completely dry before storing to help prevent mildew from forming.
 3. Store all parts in a dry, temperature-controlled area where temperatures do not go below 32°F or above 125°F.
 4. Use a small patch kit to repair punctures or holes in pool.

Repair

1. Use a mix of liquid dish soap and water in a spray bottle, and spray over suspicious areas. Any leak will produce bubbles that will pinpoint the location of the leak.
2. Thoroughly clean the area surrounding the leak to remove any dirt or grime.
3. Cut a piece of repair patch (included) with a margin of 0.8" (2 cm) larger than the damaged area, rounding the corners with scissors.
4. Place the patch over the center of the leak, press down firmly, and squeeze out all air bubbles to the edges. You may want to put a weight on top to keep it in place.
5. Do not inflate for one hour after patching.

NOTE: if the patch does not hold, you can use the patch with silicone- or polyurethane-based glue designed for repairing camping mats, tents, or shoes. Consult your local household/camping supply stores, and follow the instructions of the glue you've chosen.

POOL COVER USE & SAFETY

If you are going to use a pool cover, solar cover, or solar blanket, please read the following information.

POOL COVER, SOLAR COVER, & SOLAR BLANKET WARNINGS

WARNING! AVOID DROWNING RISK.

WARNING: Non-secured or improperly secured covers are a hazard.

WARNING: Only use the included drawstring to secure the cover to the pool.

WARNING: Labels must be facing up when the cover is installed.

WARNING: Keep children and small animals away from the covered pool.

WARNING: Remove standing water from the top of the cover to avoid drowning.

WARNING: Remove the cover completely before swimming to avoid entrapment.

WARNING: Stay off the cover. It is not designed to hold any weight.

WARNING: This is not a safety cover.

ATTENTION: Type OC cover classification.

ATTENTION: This cover meets requirements described in specification F-1346 (ASTM)

WARNING: Failure to follow all instructions may result in injury or drowning.

IMPORTANT!

DO NOT use a pool cover, solar cover, or solar blanket on this pool if it does not have the correct type of warning label on the cover.

DANGER!

Competent supervision and knowledge of the safety requirements are the only ways to prevent drowning or permanent injury in the use of this product!

WARNING!

Never leave young children unattended in or near the pool!
