

NOTE: There is a small chance that you may experience discoloration of your solar blanket. If so, please place the rolled-up product outside in the sun (not on grass) and the color will turn back to clear within an hour.

Solar blankets offer many benefits including:

- Extends pool season
- Cuts nighttime heat loss
- Reduces chemical consumption
- Reduces evaporation loss saving you time and money
- Keeps pool free of debris
- Increases water temperature

WARNING

This solar blanket is designed solely as a heating system and is not designed for use as a safety cover. It is not designed to support people or any other weight. The solar blanket must be removed completely from the surface of the pool before entry into the pool. Under no circumstances should one swim under the solar blanket.
